PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with 3+ years at Amazon as ML Data Associate (Data Quality & Operations). Processed 800K+ Video & Image data points with 99%+ accuracy – 2.5 years Video annotation @ 1100/day avg and 6 months Image annotation @ 650/day avg. Skilled in SQL, PostgreSQL, Python (Pandas, NumPy), Power BI (DAX, Power Query, Data Modeling) and Advanced Excel for quality auditing, root cause analysis and KPI tracking. Built 3 end-to-end analytics projects in churn, e-commerce operations and YouTube analytics. Demonstrated ownership by leading 15+ team with zero SLA miss.

TECHNICAL SKILLS

SQL & Databases: SQL, PostgreSQL, MySQL, Joins, CTEs, Window Functions, Subqueries, Query Optimization

Programming & Analytics: Python, Pandas, NumPy, EDA, Statistical Analysis, Data Cleaning, Data Validation

BI & Visualization: Power BI, DAX, Power Query, Data Visualization, Dashboard Development, KPI Analysis

Other: Microsoft Excel (Advanced), Business Intelligence, Operational Analytics, Root Cause Analysis, SLA Management

PROFESSIONAL EXPERIENCE

Amazon | ML Data Associate | Sep 2023 – Present | Remote

- Annotated and validated high-volume datasets: 2.5 years Video annotation at **1100 videos/day average** and currently Image annotation at **650 images/day average** – total **800K+ data points** processed with 99%+ accuracy while following defined quality standards.
- Perform daily data reviews and quality checks on 500+ tasks to ensure accurate and consistent outputs across data-intensive workflows.
- Monitor operational metrics and productivity indicators to identify performance gaps, recurring error patterns and opportunities for process improvement.
- Investigate process discrepancies, perform root cause analysis and collaborate with team to resolve issues within defined timelines.
- Acting Team Lead – Feb 2025 (1.5 Months) – Emergency Coverage: Stepped up to lead team of 15+ during manager's emergency leave, owned daily operations, task allocation, team huddles, error reviews and 1:1 coaching sessions – ensuring **zero SLA miss**.
- Team Operations Support: Consistently support Ops Manager in daily operations, handle day-to-day blockers and Chime escalations, review team errors and conduct performance improvement discussions.

PROJECTS

Customer Churn & Retention Analysis | PostgreSQL, SQL, Python, Pandas, Power BI, DAX

- Analyzed 7,043 customer records to identify churn drivers, customer segments and high-risk groups for retention strategy.
- Cleaned and explored customer data using Python/Pandas and analyzed churn patterns across contract, tenure, internet service and payment method using SQL (CTEs, Window Functions).
- Built Power BI dashboards and DAX measures to visualize churn rate, retention, customer segments and key business metrics.

Olist E-Commerce Sales & Operations Analysis | PostgreSQL, SQL, Power BI, DAX

- Analyzed approximately 99K Brazilian e-commerce orders across customers, products, payments and delivery operations.
- Used SQL and Power BI to evaluate sales, customer behavior, product performance, fulfillment and delivery KPIs (OTD %, Delay).
- Built interactive dashboards covering Overview, Sales, Orders & Customers, and Delivery & Operations with KPI cards.

YouTube Analytics Dashboard | Power BI, Data Visualization

- Built an interactive Power BI dashboard to analyze video views, content types, upload trends and top-performing videos.
- Developed KPI-driven visualizations to compare video performance and identify content performance patterns.

EDUCATION

B.Tech – Computer Science Engineering | Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow | 2019 – 2023
